

## Meritor Part

Meritor Parts - The Meritor Business is a leading global supplier founded upon one hundred years of custom of quality and service. Meritor concentrates on integrated systems together with a range of modules and components to the original machinery makers and aftermarket equipment within the transportation and industrial sectors.

Meritor prides itself in the company's distinctive energy and feels that this energy contributes to their competitive advantage in the global operations. The company values all of their customers and wants to guarantee their success while anticipating their various needs. Meritor begins with a tradition which values diversity of people and their broad thought processes. Operating in 19 countries and hiring over 11,200 individuals, Meritor encourages innovation and collaboration amongst a team of experienced experts.

Meritor strongly believes in just employing future focused staff. These top-caliber individuals can rapidly adapt to changing surroundings and freely exhibit the level of performance and commitment needed so as to attain results for the competitive market environment. The company empowers their teams to make sound business decisions to be able to improve the overall success of the business. In return, Meritor offers all their workers different possibilities for personal and professional development.

The Advanced Engineering team is on the forefront of systems engineering and components. This consists of drivelines, axles, braking and suspension systems meant for heavy duty and medium trucks, trailers, off-highway vehicles, buses and military vehicles. The Meritor Advanced Engineering team is growing. They launched a new technical center in Bangalore, India in September 2009 in order to lead their advanced product development initiatives that represent the whole Asia Pacific region. This team is also responsible for supporting the requirements of all their international engineering staff.

Meritor's customer focused and dynamic Quality team is committed to ensuring optimum processing at their production plants and aftermarket distribution facilities which are located all around the world in 19 countries and in 5 different continents.

The supplier development network is specially situated to be able to support new business growth. Regional teams are supported by global initiatives, quality systems and centralized specialties in Six Sigma and Materials Engineering. Meritor's growing Six Sigma program encourages a fact-based, data-driven method to decision making in each and every aspect of the company. The DFSS or Design for Six Sigma ensures product reliability in each region. The team is likewise comprised of transactional Green Belts who utilize Six Sigma tools to business methods and apply lean techniques.
