

Rockwell Part

Rockwell Parts - AxleTech International is a leading dealer in the globe of specialty vehicle drive-train systems and parts along with off highway vehicles. The company prides itself on being its customers' preferred supplier. AxleTech strives to meet and exceed their customers' expectations for delivery, quality, service and technology. They believe in working in an environment that supports the highest integrity with empowered teamwork, together with a persistent pursuit of results.

AxleTech International falls under the umbrella of General Dynamics. They put great importance on being an environmentally conscious company and providing a safe environment for their workers to work in. In addition, they have applied several programs within the organization so as to help convey these values in their business policy. AxleTech gladly shares this policy and welcomes interested parties to offer them with whatever questions or comments, since they are happy to share and promote this policy with a greater understanding of their efforts. They are very committed to improving and preserving the environment. AxleTech has an EHS program which not only protects the environment but which also actively protects their employees and neighbors as well.

AxleTech specializes in the manufacture and designing of planetary axles utilized for both military and commercial applications, that could include anything from construction equipment to airport ground support. They take great pride in being an innovative drive-train solutions provider too. AxleTech specially designs axles to meet particular application demands. They have over 1000 various axle specs in their existing offering. With more than one hundred years of experience and history, AxleTech proudly supplies the most complete solution for whichever of your axle requirements. The business is well known in numerous commercial and military applications. They provide complete axle assemblies for aftermarket replacement requirements, along with servicing axle needs for OE production. Their high mobility ISAS have added details that could be seen in the "ISAS" product collection.
