

## TCM Forklift Part

TCM Forklift Parts - In the international trade of material handling, forklifts play an important part for transporting industrial goods. First innovated as industrial vehicles in the 1930s in the United States of America, lift trucks gained recognition after WWII during the 1940s. Becoming an efficient and reliable means to material handling solutions, the practicality and need of these machinery spread worldwide.

Originally established as Toyo Carrier Manufacturing Company Limited, in the year 1949, the company was later renamed Toyo Umpanki Co. before becoming known as the TCM Corporation. Started by Mr. N. Niwa manufactured Japan's very first lift truck. Over the years, TCM lift trucks have become a worldwide leader in forklift manufacturing and have built a solid reputation with the trade. TCM started constructing forklift manufacturing locations outside of Japan during the 1980s and is currently engaged in lift truck manufacturer at three foreign factories in Europe, China and the United States.

TCM proudly makes numerous models of industrial lift trucks with over 50 years of accumulated expertise and technology, making their products used and recognized all over the globe. Characterized by energetic staff and strong initiatives, TCM continues to look toward the future and aspires to become a world-class leading company.
