

## Clark Forklift Parts

Clark Forklift Part - Presently, there are no less than 350,000 Clark lift trucks performing globally, and upwards of 250,000 in service in North America alone. With five main lines across the world, Clark is proud to be one of the most expansive organizations in the industry. Heavy duty trucks ranging from 1,500lb to 18,000lb capacities, dual fuel, gasoline, LPG, hand-driven trucks, narrow-aisle stackers and electric riders are a few of their specialties.

Clark Totalift, handles more than 120,000 particular parts fabricated for 20 distinctive brands of forklifts and automated equipment. Your local Clark Dealer is your total source for availability of all your components requirements provided by Clark Totalift.

Clark's extraordinary Parts Distribution Stores are conveniently stationed in Louisville, Kentucky, which serves both their customers and sellers in North America, and Changwon, South Korea, which handles their Asian sellers and consumers. For over 90 years, Clark has surpassed industry standards, being one of the most actively advancing producers. Motivated to offer the highest level of value and service to our users, Clark remains on the cutting edge when it comes to improving productivity and benefiting performance.

Globally, Clark has one of the most outstanding supplier support networks. With over 550 locations worldwide, supplier representation in over 80 countries and 230 locations in North America, their high level of commitment to their consumers predominates the materials handling industry.

By revolutionizing the operator restraint system safety feature, Clark proudly remains a leader of refinement in the industrial equipment and automated lift truck industry. This exceptional dedication to safety is currently a standard feature on every forklift.

Clark's continual mission to have the No. 1 Quality system in the industry is proudly demonstrated by ISO 9001 - Clark, is the first lift truck maker across the globe to be certified with the globally approved quality standard ISO 9001 for each and every one of their production plants. Also, the ISO 14001 Environmental Stewardship System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement permits Clark to be prepared for any environmental restrictions, thus placing them in a dominant market position.

Clark has preferred the extremely economical and advantageous structure of "Lean Manufacturing" for its assembly facilities and use of resources. This system was established to acknowledge the most efficient method of manufacturing plant management and ensuring maximum proficiency. Clark has concluded this transition of its Korean facility. COPS which is Clark Optimized Production System, similarly focuses on quality of product and services and manufacturing efficiencies.

Clark's product engineers and suppliers join together to upgrade the proficiency and brilliance of their merchandise while minimizing costs. The new value engineering program combines innovative product development and offers improved consumer support and service within the industry.
